MORS MULTI SITE MANAGER™

FOR GROUP LEVEL RISK MANAGERS. OFFERS A GLOBAL VIEW
OVER BUSINESS UNITS, GEOGRAPHIC LOCATIONS AND TIME ZONES
INTEGRATING MULTIPLE LOCAL MORS SOLUTIONS IN REAL TIME.

KEY FEATURES

- Connects any wanted combination of MORS solution instalments together.
- Real-time view on both consolidated total and single transaction level.
- Both for business driven and control driven usage.
- Full drill down analysis with unified instrument, counterparty and portfolio names.
- Time Machine for full analysis at any given historical time point, or between any two time points.
- Segregated user rights.
- Transferrable user rights for 24/7 trading and control usage across time zones.

MORS Multi Site Manager enables full analysis at any historical time point, or between two time points.

Like all MORS Add-On solutions MORS Multi Site Manager integrates seamlessly with other MORS solutions, offering additional functionalities for Treasury, Risk Management, Liquidity Management and ALM (Asset and Liability Management) in banks.

RISK MANAGEMENT OVER TIME ZONES AND CONTINENTS

INCLUDING STANDARD MORS FUNCTIONALITIES:

REAL-TIME: analysis, calculations, forecasting and simulation.

DRILL-DOWN AND DRILL-THROUGH: Full drill-down to cash-flow and transaction level.

MERGING AND SORTING DATA: Calculations and data can be sorted on any sublevel, such as legal entity, currency, business unit, portfolio.

EARLY WARNING INDICATORS with alerts, warnings and limits on different risk components.

BCBS239 COMPLIANCE
